

Hi, friends!

Let's go deep into the sea.

Let's meet sea monsters.

Are you ready?

Here we go.

Down, down, down.

Wow, it is dark here.

Look!

This is a whale.

It is a sperm whale.

It is big.

Very, very big.

It is as long as a school bus.

Look at its head.

Its head is so big.

These are its teeth.

One tooth is as big as a
banana.

Now the whale dives.

Down, down, down.

Who is this?

It is a squid.

A giant squid.

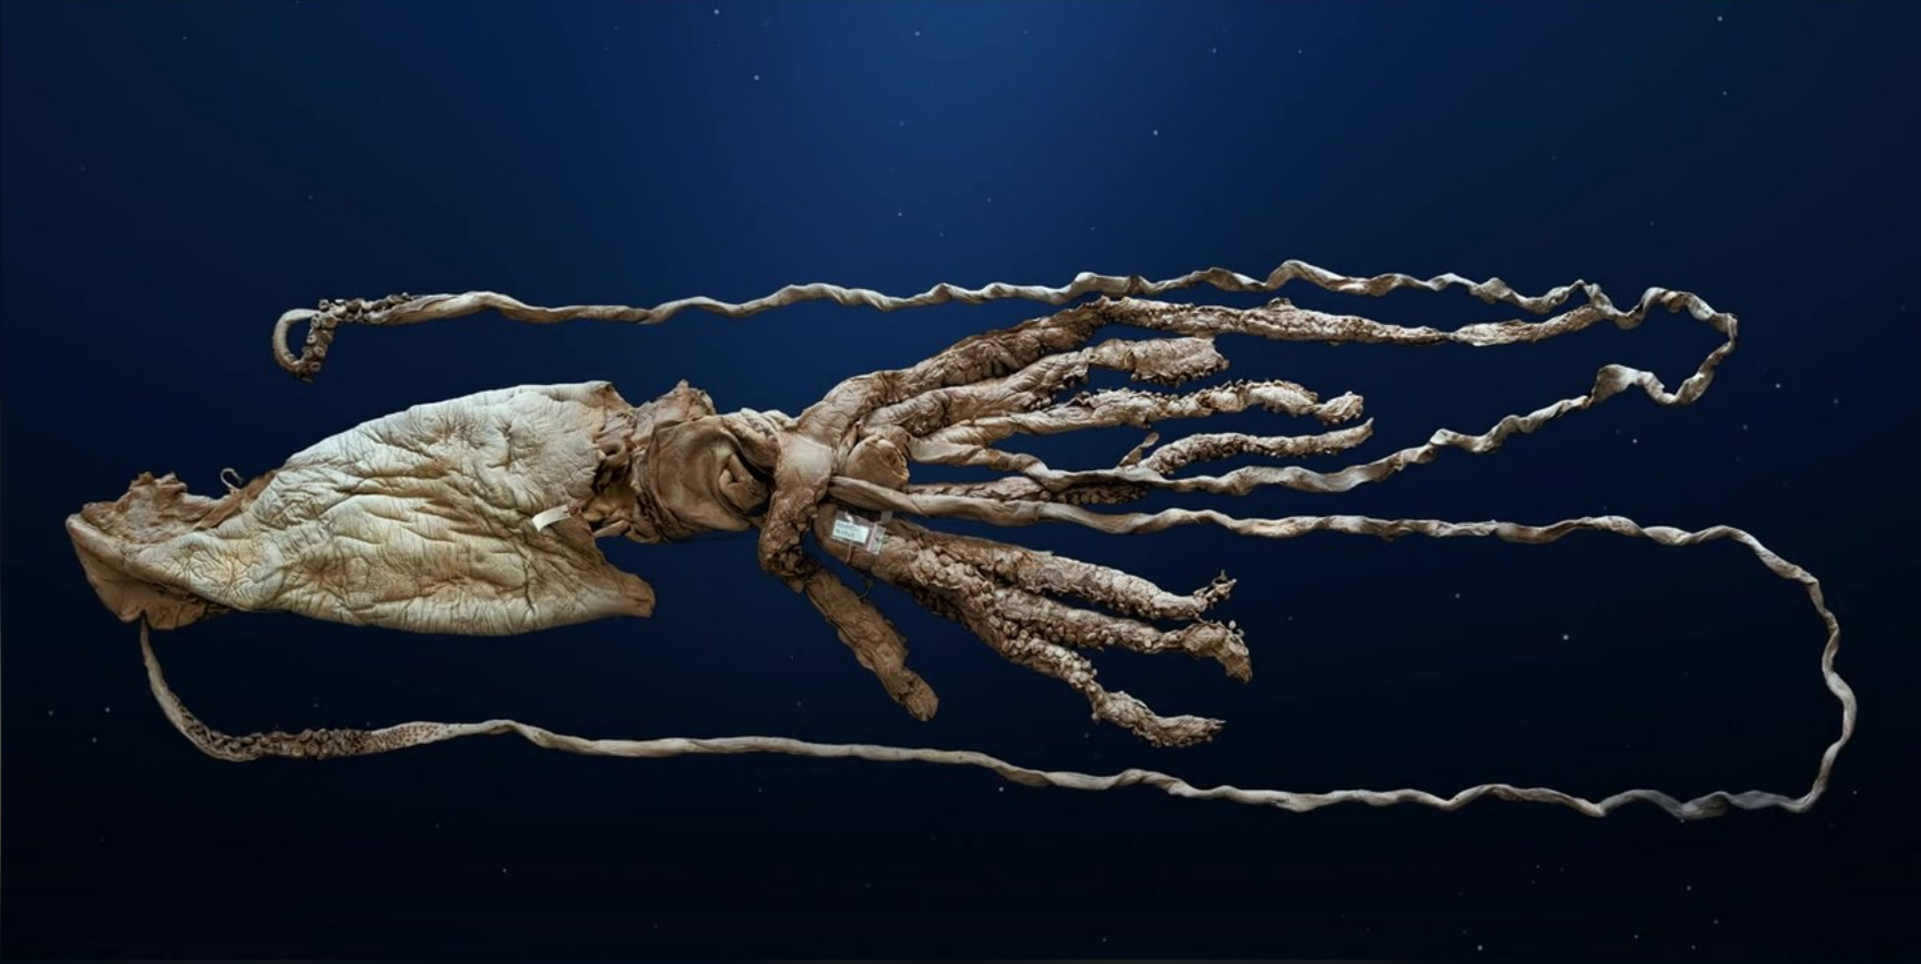

Look at its eyes.

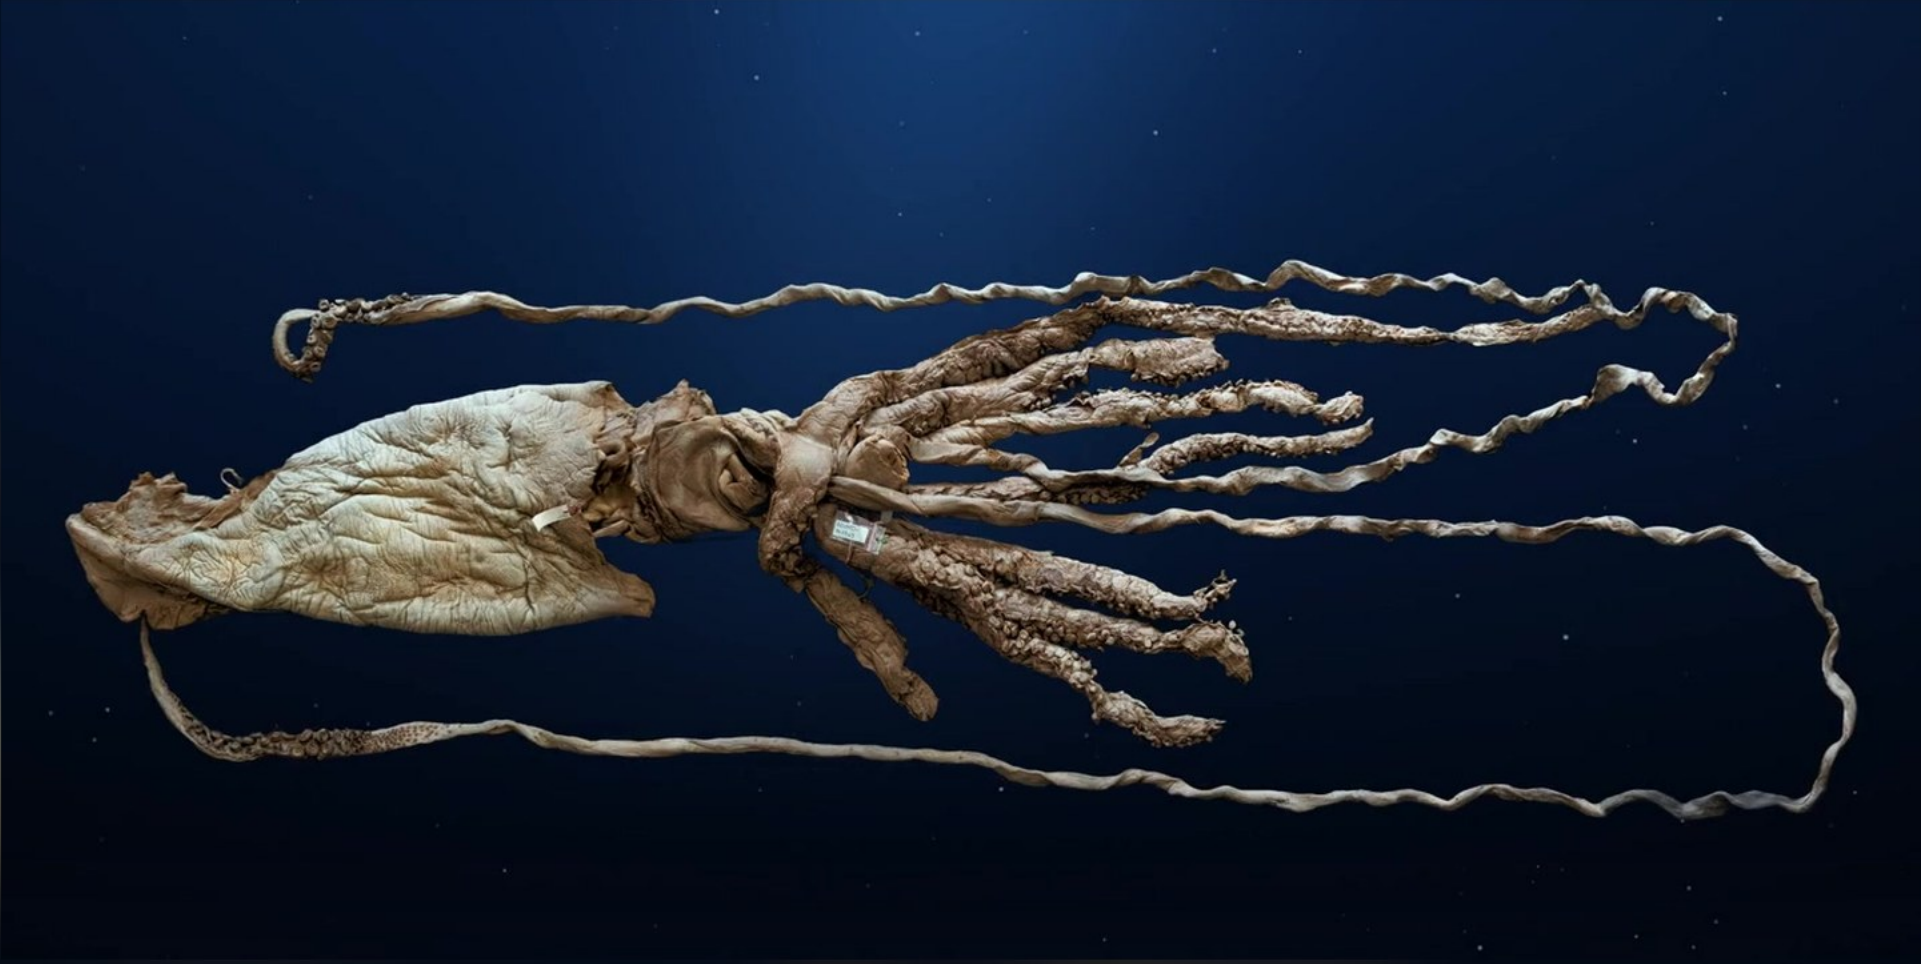

Its eyes are as big as dinner plates.

Wow, what big eyes!

These are its tentacles.

They are long, long, long.

This is a Humboldt squid.

It can turn red.

It can turn white.

Red, white, red, white.

It is fast.

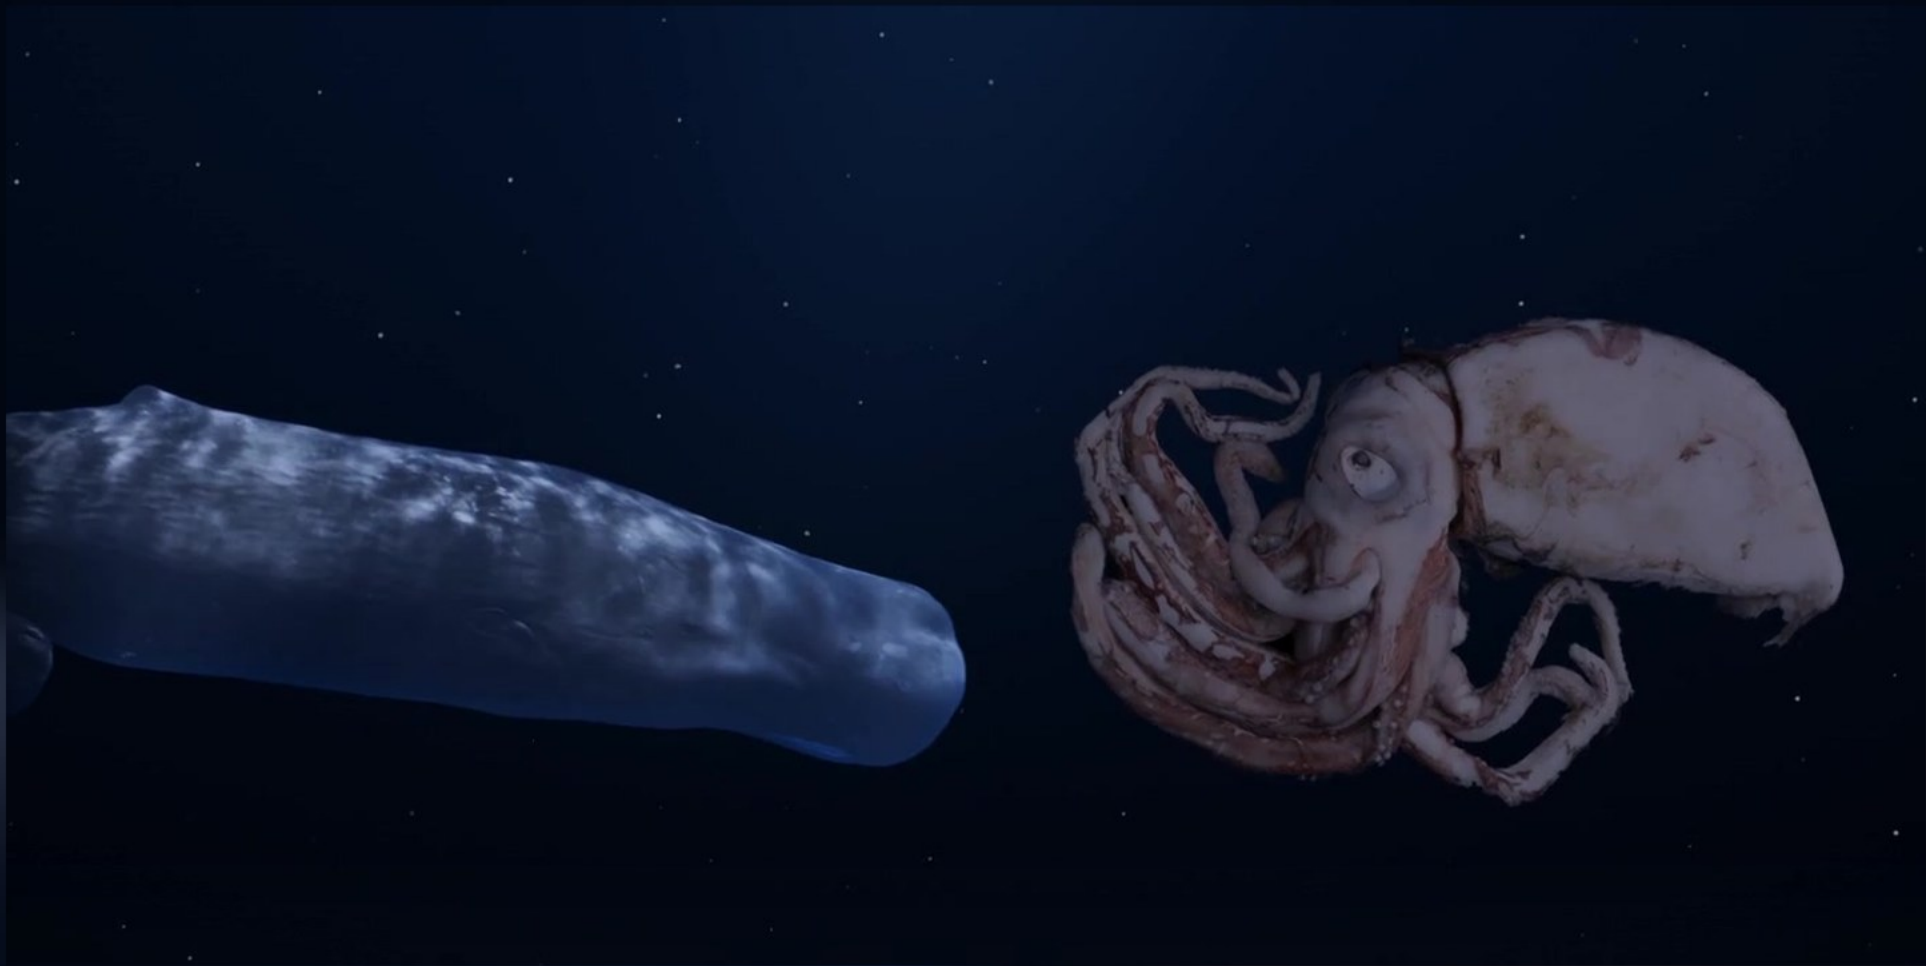

Zoom!

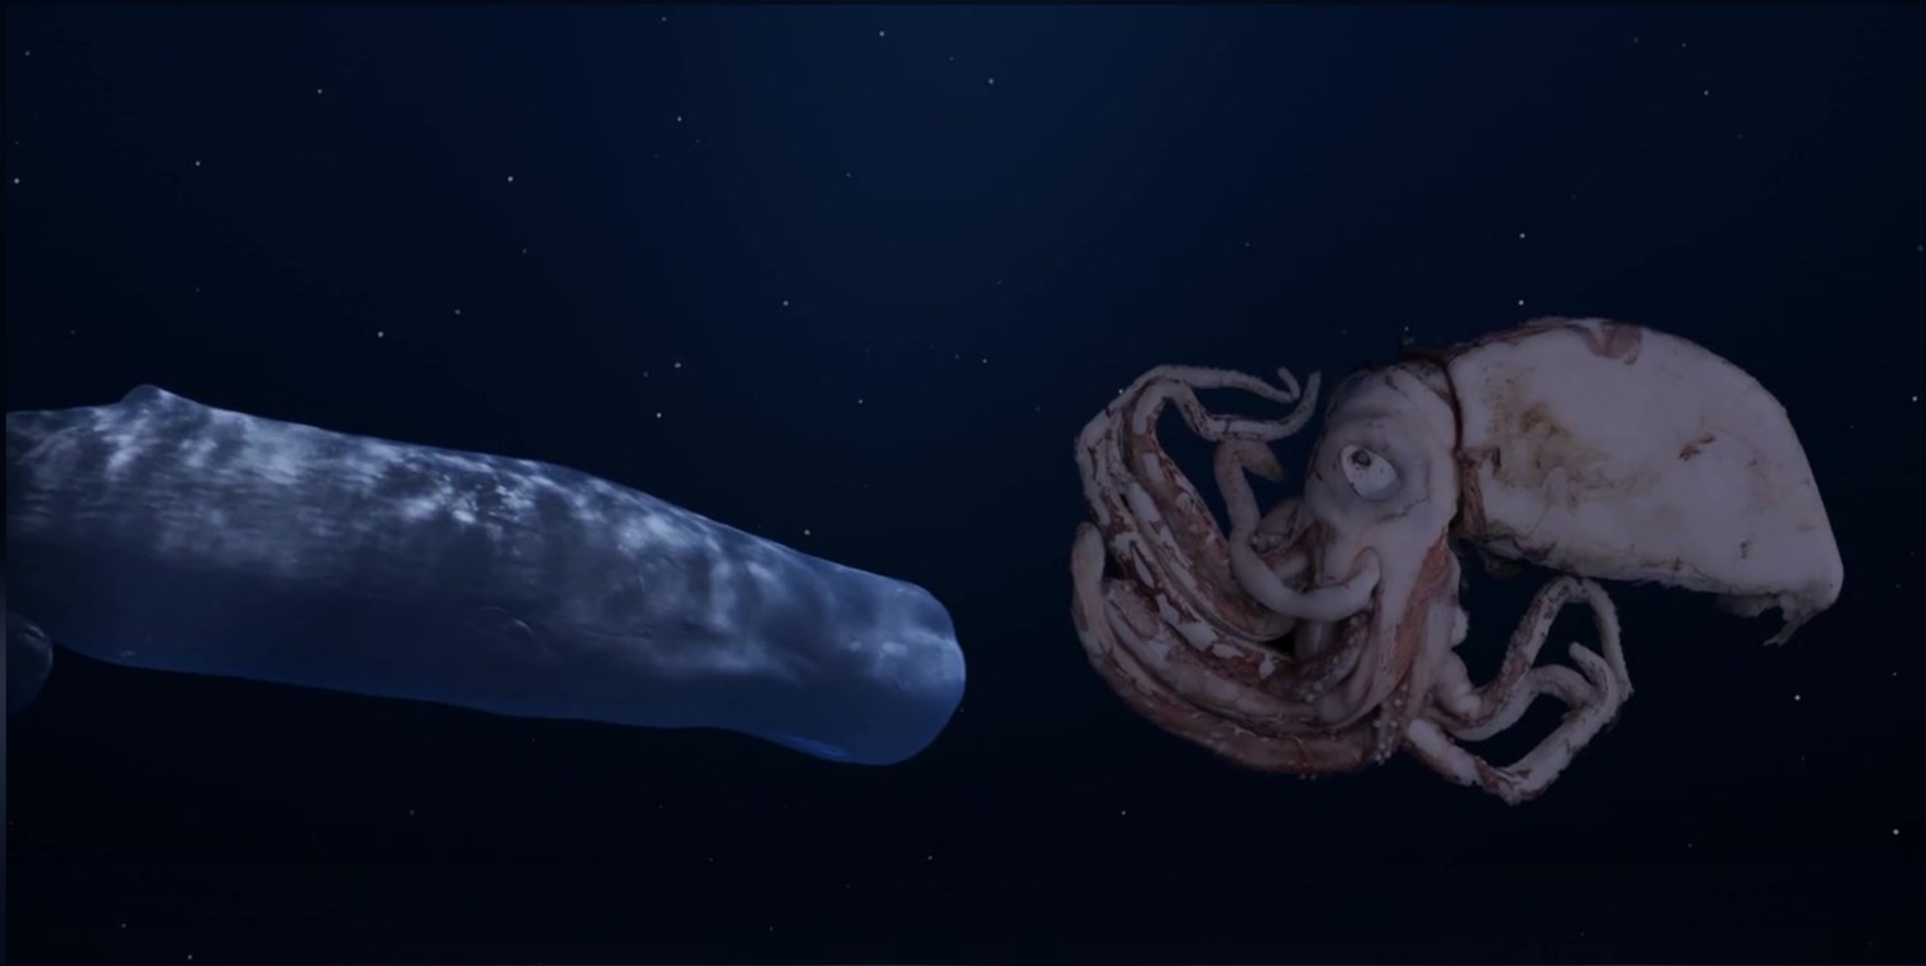

They swim together.

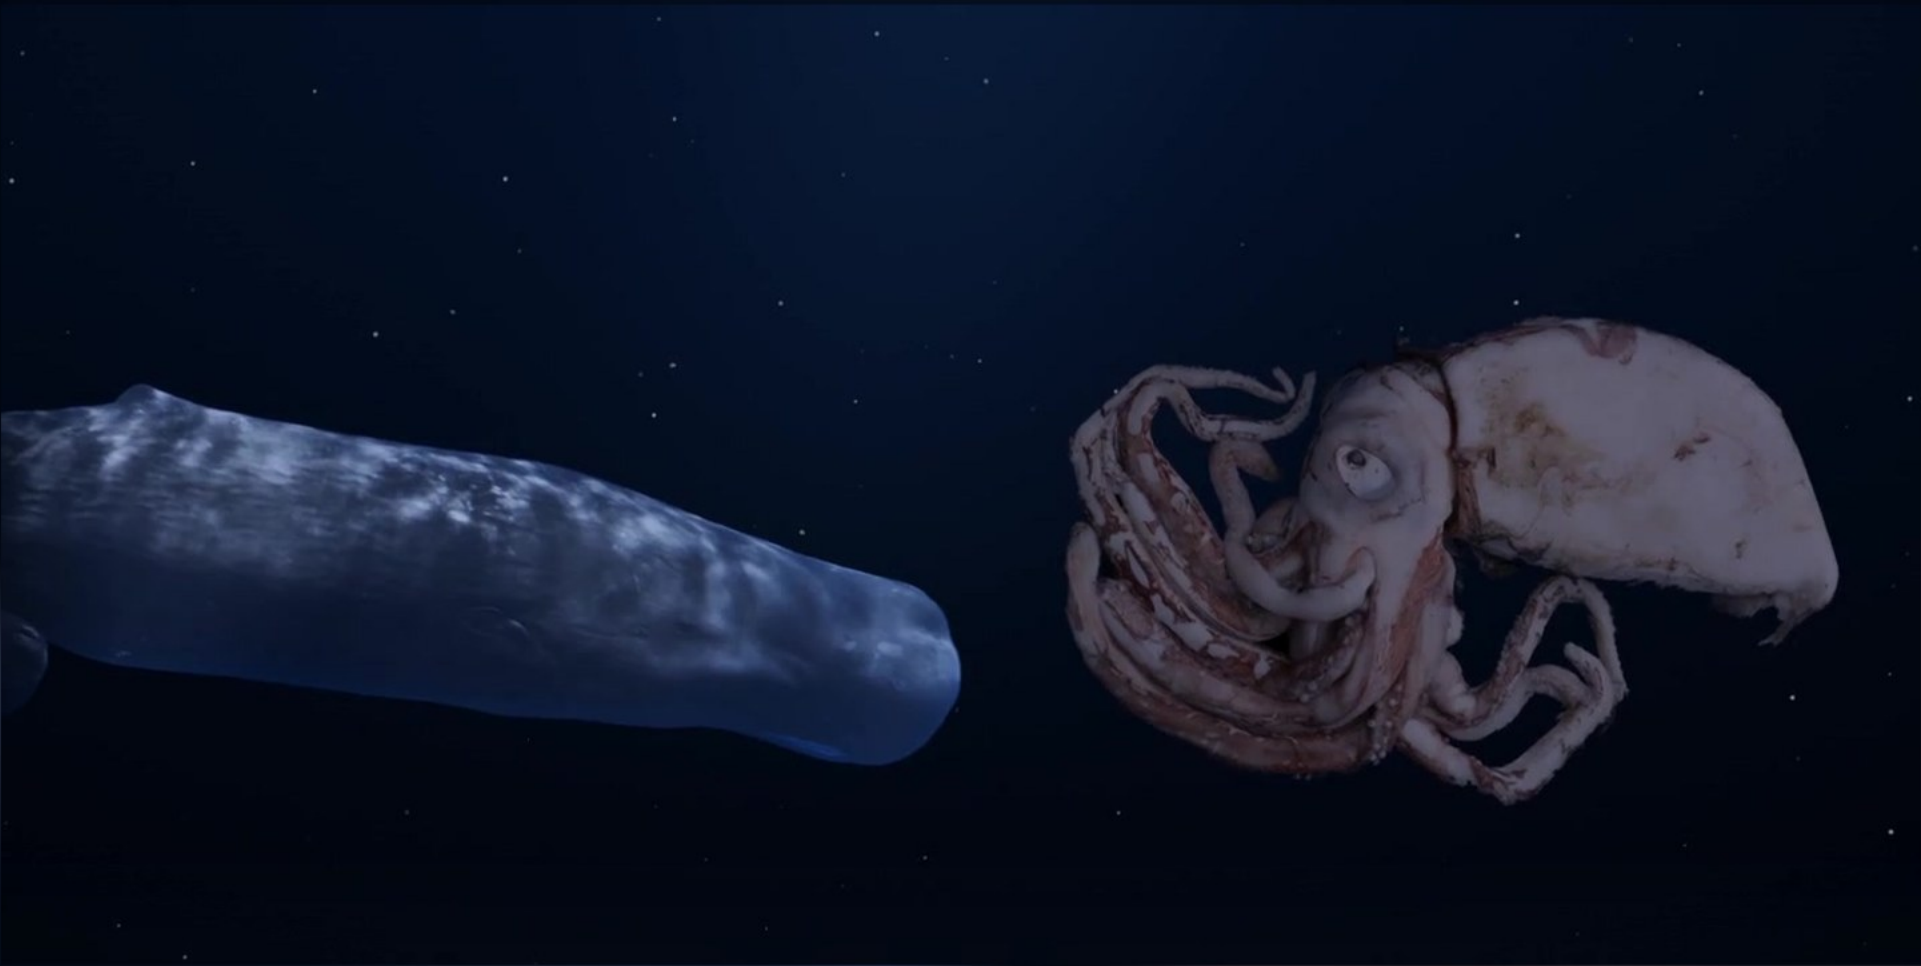

So many squid.

The whale is hunting.

It wants to eat the giant squid.

The squid can see it with its big eyes.

Who will win?

We don't know.

It is so dark.

Let's say the words.

Deep.

Dark.

Sperm whale.

Big.

Teeth.

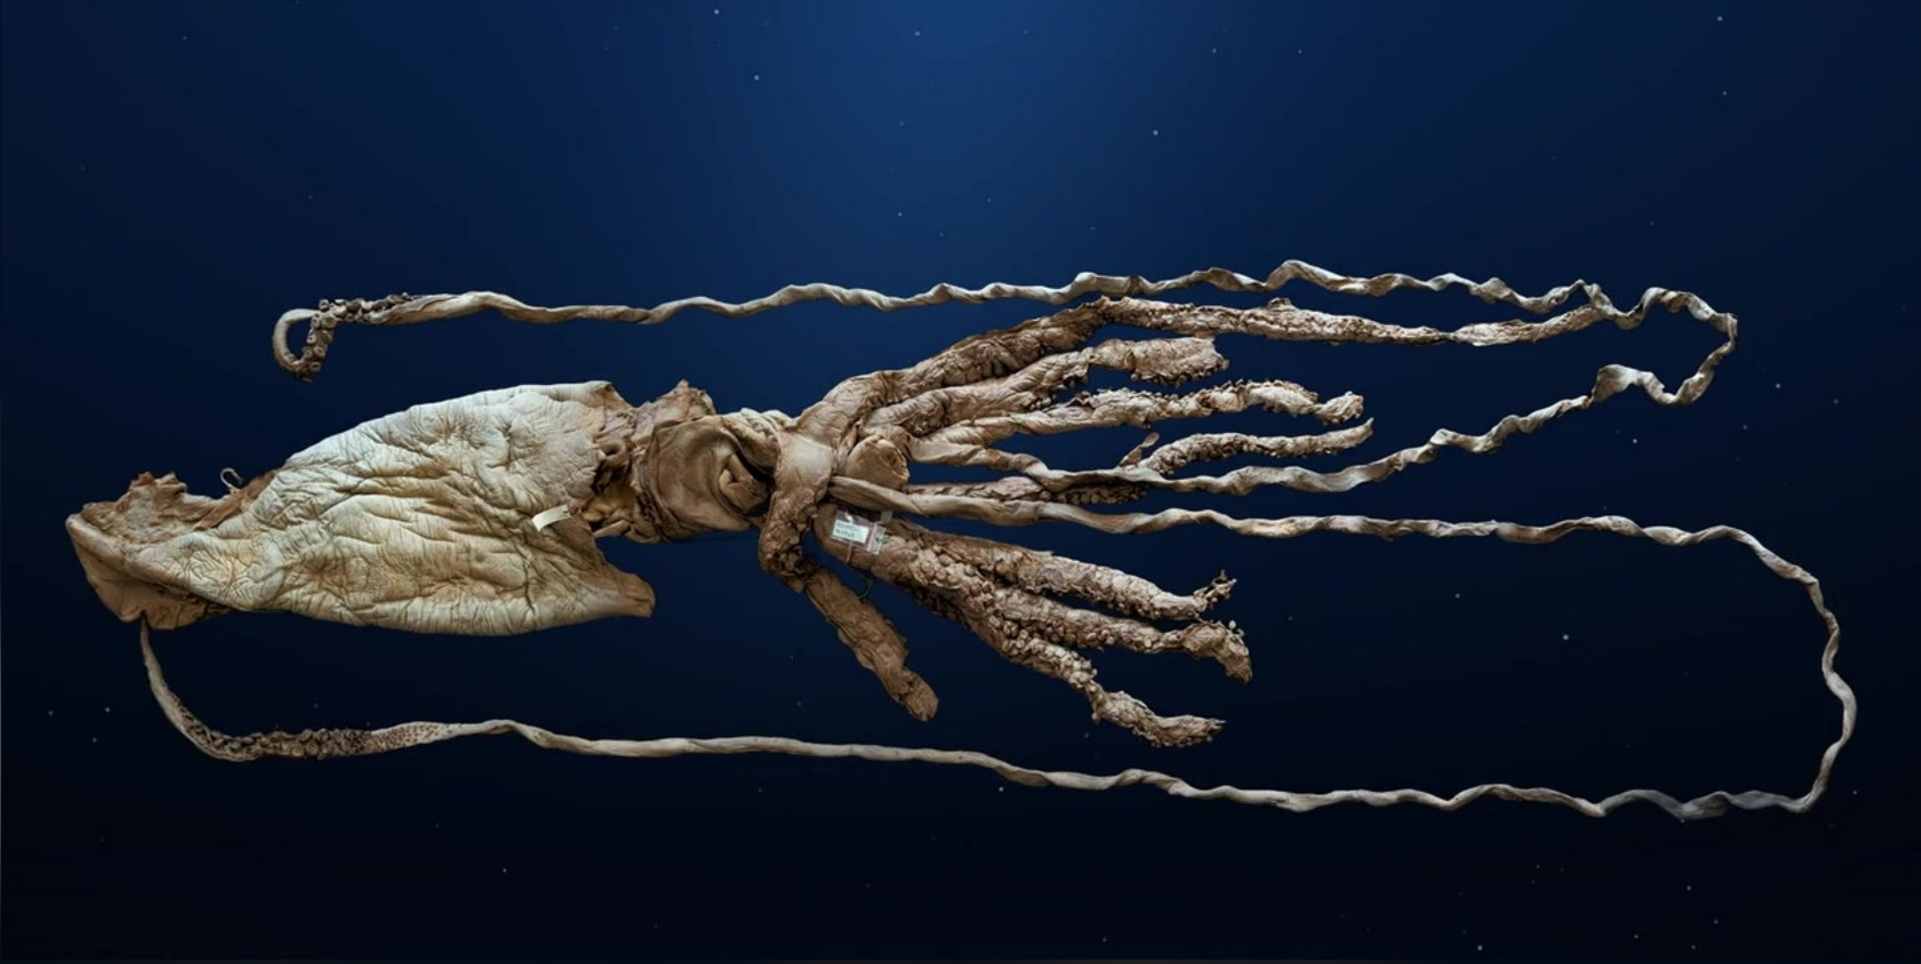

Dive.

Giant squid.

Eyes.

Tentacles.

Humboldt squid.

Red.

Fast.

Swim.

Hunt.

Great job.

Bye bye, giant squid.

Oh no.

The squid squirts ink.

I can't see.

Hehe!

See you next time.
